

Consolite Technology Specification Sheet

Part No: CTL-R076

Material: NVG Compatible Polymer Film, Green, EL Source

The film is intended for use with a green electroluminescent source to provide full compliance with MIL-STD-3009 for both NVIS Green A chromaticity and Class A and B NVG compatibility. The film is available in thickness of 0.1in.

Properties quoted below are calculated in combination with a typical EL source and may vary with other specific sources.

Typical performance

NVIS Radiance		Green/Red Ratio		Chromaticity	
NR _A	NR _B	I3	I3W	u'	v'
7.59E-11	3.46E-11	1540	263	.0674	.5651

Photopic Transmission **54%**
