

Consolite Technology Data Sheet

Material Ref: CTL-R153

Function: NVIS Green A Polymer Filter, Incandescent Source

Description

The filter material provides full compliance with MIL-STD-3009 for both NVIS Radiance and chromaticity when used with a suitable filament lamp source.

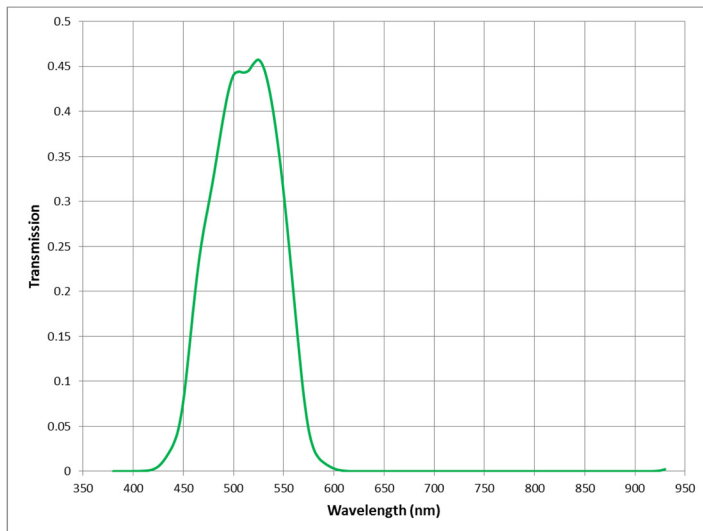

Nominal thickness: 1.0mm

Performance

Indicative performance figures below are quoted for CTL-R153 in combination with a typical T1¾ 28V, 40mA lamp operating at 1800K, and may vary.

NVIS Radiance		Green/Red Ratio I3(W)	Chromaticity		Photopic Transmission
NR _A	NR _B		u'	v'	
4.63E-11	4.80E-12	208	.093	.561	11%
