

## Consolite Technology Data Sheet

**Material Ref:** CTL-R200

**Function:** UK NVG White Polymer Filter, Incandescent Source

### Description

The filter material provides NVG White in accordance with UK specifications when used with a suitable filament lamp source. NVIS Radiance but not chromaticity is also compliant with MIL-STD-3009.

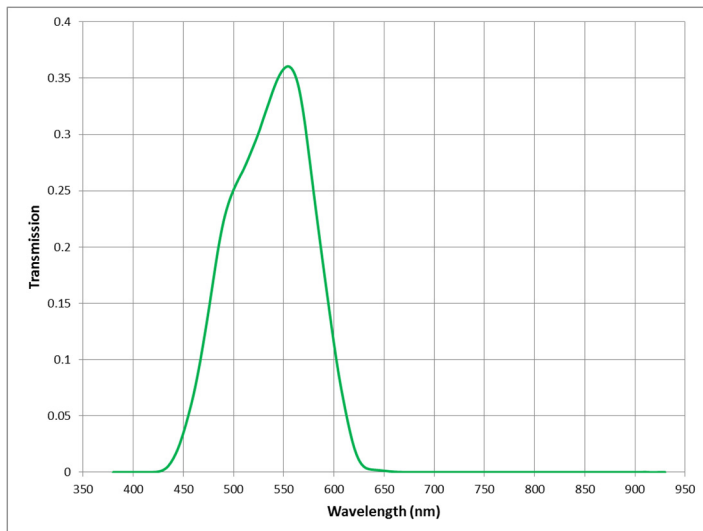

Nominal thickness: 2.5mm

### Performance

Indicative performance figures below are quoted in combination with a typical T1¾ 28V, 40mA lamp operating at 1950K, and may vary.

NVIS Radiance @ 0.1fL		Green/Red Ratio		Chromaticity		Photopic Transmission
NR <sub>A</sub>	NR <sub>B</sub>	I3	I3(W)	u'	v'	
8.24E-10	9.65E-11	359	287	.184	.563	19%

### Spectral Transmission

### Chromaticity Coordinates (CIE 1976)
